

ABCO 3 Section Hospital Examination C Couch

The ABCO 3 section Hospital Exam C Couch has been developed in Australia to handle larger patients in a clean, uncluttered structure

This structure also improves the safety of the couch as there are far fewer points where stray fingers or limbs may be caught

As such, it is long enough and wide enough for most patients. The minimum height of 52cm makes access for frail or disabled patients easy

±15° Trendelenburg is a standard inclusion

The braked castor system makes moving the couch easy without compromising stability in use

The height, backrest, and ±15° Trendelenburg are all electrically adjusted using a hand control which includes reset buttons for horizontal and -ve Trendelenburg

While the lifting capacity of 350kg may rarely be required, the robust structure required to support this capacity ensures a long, trouble-free life

Product Code: **EH20.07121.TE00EH.005PO**

Standard Configuration	Factory Fitted Options
710mm wide Upholstery	800mm
Hand control	Foot control
	Twin foot or hand control
	Add Breathe Hole with plug in backrest
