

ABCO Hylo Chiropractic Table

The ABCO Hylo Chiropractic Adjusting Table with Drops is designed and manufactured in Australia. Combining both HyLo [tilt] and Elevation [height adjustment] functions, this is a versatile table providing flexibility for your practice.

The twin column structure:

- Provides a much more rigid working surface without 'end-bounce'
- Eliminates lengthwise movement during height adjustment
- Improves the safety of the couch as there are far fewer points where stray fingers or limbs may be caught
- Enhances treatment by moving quickly and quietly as required

Patients of up to 200kg are tilted effortlessly from standing to prone in only 11 seconds while the Elevation adjustment will handle more than 250kg. You will love our crisp, heavy duty, fully adjustable drop pieces.

Four drops are included with Foot press body cocking as standard. Hand cocking is available as a no-charge option

The foot plate can be moved in to the table end to improve access during treatment

Product Code: **CIMD.05642.CDFFFF.50NPO**

Standard Configuration	Factory Fitted Options
Cervical section $\pm 20^\circ$	Height adjustable / 'toggle' drop
	Forward Drop
	Height adjustable with forward drop
