

ABCO Fitness Reformer

The ABCO Health Care Pilates Fitness Reformer is designed and manufactured in Australia, perfect for studios, gyms, or home use. Its unique extruded rails ensure a smooth-riding carriage, while the foot bar features a spring-loaded angle adjustment that can be operated by foot during a session. With integral wheels, moving the reformer is a breeze, and it can be stored by stacking up to five high or upright when not in use. Non-slip feet keep it securely in place, even on wooden floors.

This reformer offers a carriage height of 190mm and comes with five springs, providing up to 45 varying resistances. The integrated steel footboard has a non-slip surface, and the double-function rope straps can be used for hands or feet. The removable shoulder pads have integrated rope storage hooks and two length positions. The wide foot bar is padded for improved comfort.

Optional accessories include a reformer box, a jump board, and a mat insert. Plus, ABCO Pilates Reformers come with a 5-year warranty, ensuring long-term reliability and performance.

Factory Fitted Options

- Choice of upholstery colours
