

ABCO Dual Action Tilt Table

Introducing the new ABCO Dual Action Tilt Table, designed and manufactured in Australia with a 5-year warranty.

This table builds on the success of our popular model available since 1997. With its twin column lift, it offers powerful lifting without lengthwise movement during height adjustment, ensuring safety with fewer moving parts where hands or limbs could be crushed.

The table is perfect for easy transfers from a wheelchair, bed, or hoist, thanks to its 155mm clearance below the frame. Carers can adjust the working height to their preferred level, up to 750 or 990mm, using the hand control. The long cut-out in the leg area allows for individual strapping of the legs, and a set of three patient straps is included.

The table top tilts to 85°, allowing patients to safely walk on and off if appropriate, with the help of an adjustable angle foot plate. Angle indicators on either side of the table are standard.

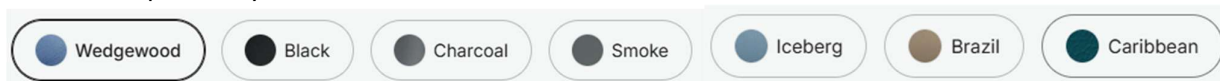

With a lifting capacity of over 350kg and a tilting capacity of 200kg, which can be optionally increased to over 350kg, this table is robust and reliable.

Standard features include a height range of 520 to 770mm, fast or slow tilting speed with 'soft-stops', hand control, adjustable angle twin foot plate, set of three patient straps, and tilt angle indicators on both sides.

Plus, there's no Australian GST payable on Tilt Tables.

Factory Fitted Options

- Choice of upholstery colours

- Increase width to 800mm
 - Add backrest
- Increase tilting capacity to 300kg
 - Change height range to 520 – 770mm
