

ABCO Single Action Tilt Table

The ABCO Single Action Tilt Table is a reliable and versatile option for rehabilitation and medical assessments.

Designed and manufactured in Australia, it comes with a 5-year warranty and offers the same functionality as the popular Dual Action Tilt Table, minus the height adjustment.

With a fixed height of 570mm, it's ideal for ambulatory patients and features fewer moving parts, reducing the risk of injury.

The table tilts up to 80 degrees, allowing patients to walk on and off safely, and includes an adjustable angle foot plate.

It has a standard tilting capacity of 200kg, which can be optionally increased to over 300kg, with full range movement in approximately 11 seconds.

The table also comes with three patient straps, tilt angle indicators on both sides, and a battery backup.

Plus, there's no Australian GST payable on Tilt Tables.

Factory Fitted Options

- Choice of upholstery colours

- Increase width to 800mm
 - Add backrest
- Increase tilting capacity to 300kg
