

**ABCO Column Junior Change Table**

ABCO Health Care’s Column Junior Change table is designed and manufactured in Australia for use in schools, disabled accommodation, sports & special needs facilities and in other locations where younger clients need help with toileting or changing. The top is 1250mm long and this can be extended up to 1650mm using the fold down cot ends.

By using twin columns, we can offer a sturdy structure with no length-wise movement while adjusting height and the clear space between the base and top of the table improves safety by removing the typical 'swing-arm'

construction of many such tables giving you peace of mind about potential crush injuries. With a minimum height of less than 500mm clients can transfer to the change table independently, from a wheel chair or with a hoist [there is 155mm clearance below the frame for hoist clearance]. Carers can adjust the working height to the best level for them [up to 950mm] using the foot control.

One cot side and two cot ends – both generously upholstered - are fitted as standard for client security.

The four individually braked wheels make moving the table easy without compromising stability in use. One wheel has a directional locking brake to help control the table when moving.

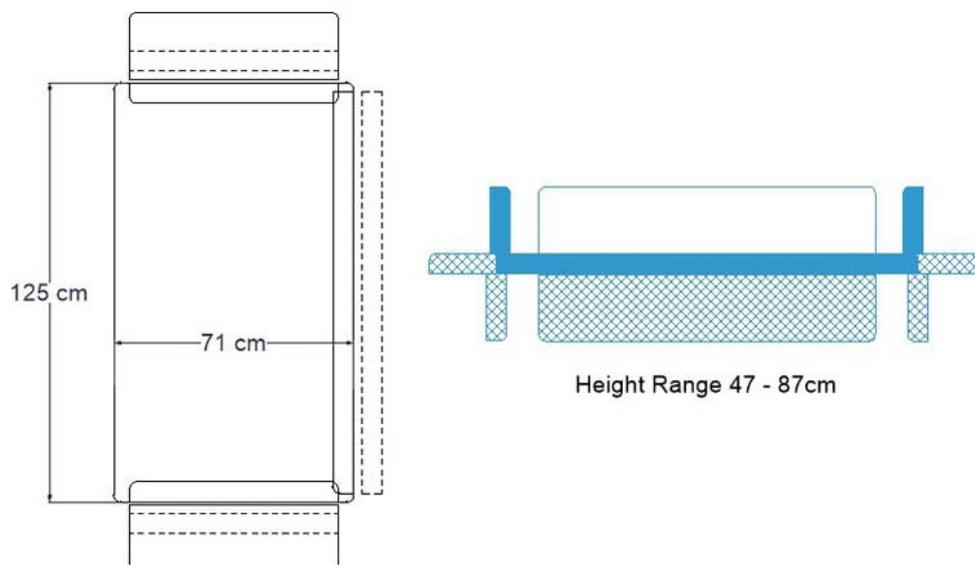

There is no Australian GST payable on Change Tables

Product Code: **CJ12.07021.C0000F.00C10**

<b>Standard Configuration</b>	<b>Factory Fitted Options</b>
Wedgewood upholstery	Other vinyl colours
Foot control	Hand control
	Add Battery
	Add 2 <sup>nd</sup> Upholstered Cot Side
	Strap Bar [included with Cot Sides]
