

# Space Saver Change Table

**ABCO** Health Care Pty Ltd

ABCO Health Care's **Space Saver Change table** is designed and manufactured in Australia as an alternative to wall mounted change tables.

This freestanding unit removes the need for specialised installation and makes moving and cleaning easy.

It compacts to less than 30cm off the wall\* when not in use which is ideal where space is already compromised.

With interchangeable tops, the table size can be increased as the user grows and optional padded cot sides to enhance client safety can be easily added or removed at any stage.

With a minimum height of less than 500mm clients can transfer to the Space Saver change table independently, from a wheel chair or with a hoist. Carers can adjust the working height to the best level for them using the foot control.
