

## ABCO Physio C Physiotherapy Treatment Table

The ABCO Physio C Treatment Table is designed and manufactured in Australia to meet the specific requirements of Physiotherapists.

The twin columns structure:

Provides a much more rigid working surface without 'end-bounce'

Eliminates lengthwise movement during height adjustment

Improves the safety of the couch as there are far fewer points where stray fingers or limbs may be caught

The gas-strut powered head section can be enhanced with multi-position arm rests combining patient comfort and improved practitioner access.

Firm upholstery cushioning provides excellent support for treatment.

While the lifting capacity of more than 300kg may rarely be required, the robust structure required to support this capacity ensures a long, trouble-free life.

Product Code: **MN20.06011.C000GF0.10NPO**

Standard Configuration	Factory Fitted Options
Base Plate without wheels	Retractable castors
	75mm braked castors
Foot control	Hand control
	Twin foot or hand control
