

ABCO P400 Podiatry Chair

Shown with optional debris tray

The ABCO P400 Podiatry Chair is designed and manufactured in Australia

Designed to lift increasingly heavy patients with ease, this chair has a capacity of 300kg. Height, seat tilt, leg rest and backrest are electrically operated by foot control and the three user-specified memory settings allow rapid positioning of the chair as required [approx. 10 seconds from entry to treatment positions depending on the configurations set]

The powerful twin column lift mechanism

- Provides a much more rigid working surface without 'end-bounce' over the full height range.
- Eliminates lengthwise movement during height adjustment.
- Improves the safety of the chair as there are far fewer pinch points where stray fingers or limbs may be caught.
- Enhances treatment by moving quickly and quietly as required

With the 30° seat tilt, the maximum heel height is 1500mm, increasing to 1600mm with the leg rest extended

The minimum height of 500mm makes access easy for all and the maximum heel height makes it easy to work standing if preferred

Optional factory upgrades include retractable castors, braked castors, upholstery configurations, battery

Product Code: **PO440.05531.CEEE0FM.000PO**

Standard Configuration	Factory Fitted Options
No Breathe hole	Breathe hole with plug in backrest
550mm wide seat	650mm wide seat
No Headrest	Articulating multi-position headrest
Wedgewood upholstery	Other standard colours
	Other vinyl fabrics
	Leather
Base plate	Retractable castors
