

## ABCO T40 Treatment Chair

The ABCO P40 Podiatry Chair is designed and manufactured in Australia

Designed to lift increasingly heavy patients with ease, this chair has a capacity of 300kg

Height, seat tilt, leg rest and backrest are electrically operated by hand control

The powerful twin column lift mechanism

- Provides a much more rigid working surface without 'end-bounce' over the full height range.
- Eliminates lengthwise movement during height adjustment.
- Improves the safety of the chair as there are far fewer pinch points where stray fingers or limbs may be caught.
- Enhances treatment by moving quickly and quietly as required

Suitable for a wide range of uses in Treatment Rooms, Blood Taking, Dialysis, Chemotherapy, Day Procedures and wherever comfortable patient positioning is desirable

The minimum height of 500mm makes access easy for all and the maximum heel height makes it easy to work standing if preferred

Optional upgrades include retractable castors, braked castors, memory system and upholstery configurations

Product Code: **TE430.05531.CEEEEH0.00NPO**
