

ABCO Elevation Activator Table

The ABCO Elevation Activator Table is designed and manufactured in Australia. With Elevation [height adjustment] function handling up to 250kg, this is a versatile table providing flexibility for your practice

The twin column structure:

- Provides a much more rigid working surface without 'end-bounce'
- Eliminates lengthwise movement during height adjustment
- Improves the safety of the couch as there are far fewer points where stray fingers or limbs may be caught
- Enhances treatment by moving quickly and quietly as required

This table has a long face hole and integrated ankle support for convenient patient positioning

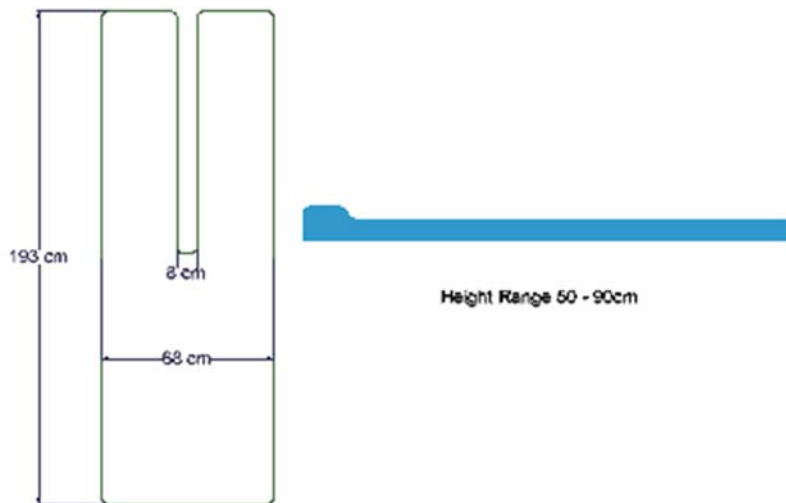

Product Code: **CIVA.06531.C0000F.50NPO**

Standard Configuration	Factory Fitted Options
