

## ABCO Massage C Table

The ABCO Massage C Treatment Table is designed and manufactured in Australia to meet the specific requirements of Natural Therapists.

The 'twin column' base design provides a safe experience for both therapist and patient by:

- Providing a much more rigid working surface without 'end-bounce' over the full height range.
- Eliminating lengthwise movement during height adjustment.
- Improving the safety of the couch as there are far fewer pinch points where stray fingers or limbs may be caught.
- Enhances treatment by moving quickly and quietly as required

The gas-strut powered head section has removable prone arm rest and head crest. Premium upholstery cushioning is comfortable for patients while providing excellent support for treatment.

Customise your table to match your preferred configuration.

While the lifting capacity of more than 300kg may rarely be required, the robust structure required to support this capacity ensures a long, trouble-free life.

Product Code: **MS40.06871.C000GF0.10NP0**

Standard Configuration	Factory Fitted Options
680mm wide Upholstery	630mm
	730mm
Base Plate without wheels	75mm braked castors
	Retractable castors
